Portfolio: <https://marinemekhakyán.github.io/i-portfolio/index.html>

Front End Web Developer with a background in marketing and content management with Full-Stack Certification from the University of California - Los Angeles. Passionate about creating unique web designs and delivering excellence in each project. Looking to bring my experience in management and degree in communications to a team to successfully collaborate and work together on creating programs and applications. Positive and creative attitude towards new challenges and changing environments. **Trilingual** with proficiency in English and Russian and native proficiency in Armenian.

Technical Skills

HTML5, CSS3, JavaScript, React, JQuery, Node, MySQL, Express, Mongo, Wordpress, SEO, Adobe Creative Suite

Projects

TiskTask

<https://tisktask.herokuapp.com/>

<https://github.com/marinemekhakyán/tisktask>

React and MySQL based app allowing Landlords and Tenants to manage ongoing maintenance issues in one platform.

Role: Developing the front-end of the app with React and creating database models and associations.

HelpFull

<https://mkdr-project2.herokuapp.com/>

<https://github.com/marinemekhakyant/GroupProject2>

Platform for businesses to register free services for their communities during natural disasters. The app was developed with JavaScript and MySQL.

Role: Building concept design, UI and front-end logic.
